

2.4GHz Wireless Digital Audio Headset

AUDIO

Features:

- Wireless Headset with receiver set
- Off line-of-sight reception and up to 30m range
- Rechargeable system with built-in Ni-Cd batteries provided
- Large 40mm diameter drivers for high-quality sound
- Easily install plug-in, and low power consumption

Specifications:

- Wireless headphones:
 - 40mm diameter drivers
 - Large comfortable ear pads
 - Built-in rechargeable batteries
 - Channel switch
 - Volume dial
 - Power LED
 - Power switch
 - Recharge socket
- Transmitter:
 - Power LED
 - Channel select button
 - Power DC input socket
 - Audio 3.5mm stereo input socket
 - Recharge plug for Headphones
- Application distance up to 30m (L.O.S.) with perfect reception
- Automatic power on/off transmitter
- Supply voltage: Transmitter - 9V DC, Headphones - 2.4 VDC
- Current consumption: Transmitter - 76 mA (Typical), Headphones - 120 mA (Typical)
- Operating temperature: 0°C ~ +50°C
- Frequency range: 2400 ~ 2483.5 MHz
- Channel number: 8
- Channel frequency: 2410, 2419 ~ 2473 MHz

- Frequency stability: ± 100 KHz
- Transmission power: EIRP+10 dBm
- Reception sensitivity: -85 dBm (Typical)
- Headphone impedance: 24 Ohm
- Output power: 2mW RMS (Maximum)
- Response: 25 Hz ~ 20 KHz, -1dB
- Dynamic range: 85dB (Typical)
- Separation: 75dB (Typical)
- SN ratio: 80dB (Typical)
- THD: 0.1% (Typical)
- Rechargeable battery: Built-in Ni-Cd

Package contents:

- A pair of Headphones
- Transmitter
- Power adaptor
- Users manual

System requirements:

- Any audio playback device with 3.5mm stereo socket
- Computer system with sound card's speaker out
- 220 ~ 240V AC power supply
